BMW Service, BMW Financial Services and BMW Experience

Editorial

EVERY MOMENT IS PERFECTION.

Achieving the best possible results, in every way, has always been the objective of the BMW 5 Series Saloon. This is what makes it so much more than a straightforward executive vehicle. Whatever the discipline, this car exudes composure and strength of character. Be it design, handling, interior comfort or functionality, the BMW 5 Series is perfect for anyone who expects more than a stylish appearance from their saloon.

The attributes: sportiness, elegance, commanding poise – and, of course, a pioneering outlook. This is convincingly demonstrated by a host of technological innovations including BMW ConnectedDrive Services, a host of apps and the optional Driving Assistant Plus.

With the BMW 5 Series Saloon, you are driving the best BMW 5 Series ever – a vehicle in which perfection is a given. And you don't just feel this on the drive to the office. You feel it on every conceivable journey – and in every kilometre.

Equipment of the vehicle shown:
BMW 535i Saloon Luxury Line.

Engine:	BMW TwinPower Turbo inline six-cylinder petrol
Output:	225kW (306hp)
Wheels:	19" light alloy Multi-spoke Style 455
Exterior colour:	Glacier Silver metallic
Upholstery:	Exclusive Mocha Nappa leather with line-specific exclusive stitching
Interior trim:	Fineline Anthracite

For information on fuel consumption and CO_2 emissions, see pages 64/65.

STRIKING FORM. PURPOSEFUL LOOK.

The high standards of the BMW 5 Series Saloon are self-evident, front to rear. It begins with the charismatic face of the car, with its optional Adaptive LED headlights, levelled slightly at the top, and the dynamically angled double kidney grille. To the rear, the taillights, which reveal the highest precision in every detail, express complete self-assurance. With their visual depth and L-shape form, they integrate perfectly with the rear design while ideally complementing the overall aesthetic profile.

BRINGS STYLE
TO EVERY STREET.

IT’S IMPOSSIBLE
TO LOOK AWAY.

AS FASCINATING AS THE PANORAMA.

ONE MORE TOUCH POINT.

The comfort offered by the BMW 5 Series Saloon is as impressive as the extensive range of Office functions from BMW ConnectedDrive. Thanks to practical USB and Bluetooth connectivity, for instance, you can connect your smartphone to the vehicle and have your contact data or schedule on view at any time in the Control Display. Still more typical driver orientation from BMW can be felt, in the true sense of the word, with the iDrive Touch Controller. This allows you to enter letters and numbers with your own handwriting. The ambience in which this takes place is entirely up to you. This is because, along with the M Sport package, the BMW Luxury Line offers another world of design to choose from. And that means even more distinctive character for the interior and exterior.

WELCOME TO BUSINESS CLASS.

DISCOVER NEW EFFICIENCY.

With the BMW 535i, the BMW 5 Series is an object lesson in efficiency and dynamics. Considering the engine output of 225kW (306hp), the figures speak for themselves: only 7.2–7.7 litres of fuel per 100 kilometres[1] and CO_2 emissions of between 169 and 179g/km[1], in combination with the optional eight-speed Steptronic transmission. If you wish, you can explore the city still more efficiently on the BMW Maxi Scooter. Its nimble handling and low fuel consumption are exactly what's needed for life in town.

[1] Fuel consumption and CO_2 emissions are dependent on wheel and tyre size. For more information, please see pages 64/65.

BMW ConnectedDrive
So connected, you're free.

Every day our lives are becoming more and more connected. BMW drivers, however, enjoy better connections than most. They can access information, communicate by telephone and email, keep a close eye on the traffic and generally stay up to date while on the move. The services that so effectively network BMW vehicles with the outside world are grouped under one term – BMW ConnectedDrive.

BMW ConnectedDrive, with its intelligent services and assistance systems, is ready with all the right equipment. BMW ConnectedDrive Services & Apps offer more freedom by providing versatile connections between the driver, vehicle and outside world. BMW ConnectedDrive Driver Assistance systems make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

For more information, go to:

www.bmw.com/ConnectedDrive

CONNECTED DRIVE SERVICES.

The **ConnectedDrive Services*** option keeps you seamlessly connected with the people and the things that matter to you. And every function has been developed to enhance your driving experience. ConnectedDrive Services offers a comprehensive selection of services and apps, including Facebook, web radio and Message Dictation.

Choose the ConnectedDrive Services* option when you order your vehicle and you will benefit from a wealth of additional services – all easily accessible through the **BMW ConnectedDrive Store**. Here you can find information on individual offers, services and apps at any time and, as desired, book them directly in the vehicle. Alternatively, you can access them via the My BMW ConnectedDrive customer portal on your PC or tablet.

* May not be available in all countries. Please consult your BMW partner.

BMW CONNECTED DRIVE SERVICES & APPS – INTELLIGENT CONNECTIVITY.

The **BMW ConnectedDrive Services & Apps*** – configuring them according to your individual needs is now quicker and easier than ever before. Listening to your favourite kind of music on every journey? No problem with AUPEO! personal internet radio.

AUPEO! PERSONAL INTERNET RADIO – CREATE YOUR OWN RADIO PROGRAMME.
With a smartphone and the free AUPEO! personal internet radio app you can make sure that you will only ever hear music that you like. Customisable internet radio adapts itself to your musical taste. Choose from over 120 music genres, to access a music library that currently comprises over one million songs. Use the "Love" and "Ban" buttons in the Control Display to define your musical preferences. The smartphone is connected to the car via the snap-in adapter or a cable recommended by BMW. This function requires the Navigation System Professional.

INTERNET – INFORMATION AT YOUR FINGERTIPS.
Whether you need to check the balance in your bank account, place a bid on eBay or look something up in Wikipedia, the BMW ConnectedDrive Internet option ensures that you can do whatever you need to do online. To enable you to surf to your heart's content, the iDrive Controller in the centre console doubles as a computer mouse.

BLUETOOTH OFFICE – ALWAYS IN TOUCH.
Bluetooth Office enables BMW office functions such as email, appointments, tasks, contacts and text messages to be shown on the Control Display or read out over the audio speakers using the read-aloud function. All compatible mobile end devices are listed at **www.bmw.com/bluetooth**.

BMW CONNECTED DRIVE DRIVER ASSISTANCE – A CO-DRIVER WHO THINKS AHEAD.

BMW ConnectedDrive Driver Assistance includes innovative functions that enhance safety and convenience, maximising your driving pleasure. Knowing in advance what sort of bend is coming up next? The full-colour BMW Head-up Display tells you.Improved safety in the dark? BMW Night Vision takes care of it.

BMW HEAD-UP DISPLAY – KEEP YOUR FOCUS ON THE ROAD.
The full-colour BMW Head-Up Display[1] projects driving information directly into the driver's field of vision. In this way, attention is always focused on the road ahead. Information includes current speed, navigation instructions, Speed Limit Info including no-overtaking indicator, Check Control messages and infotainment.

DRIVING ASSISTANT PLUS – RELAX AND LEAVE THE ROAD TO YOUR BMW.
Driving Assistant Plus not only includes Approach Control Warning and Lane Departure Warning but also Active Cruise Control with Stop&Go function and the Traffic-queue assistant[2]. This all increases comfort and safety during motorway driving. The Steptronic transmission and the Navigation System Business or Professional are required for Driving Assistant Plus and the Traffic-queue assistant.

BMW NIGHT VISION WITH PEDESTRIAN RECOGNITION AND ACUTE WARNING – THE BENEFIT OF FORESIGHT.
An optional infrared camera in the double kidney grille detects people and animals up to a distance of 300 metres, displaying images on the Control Display. Pedestrian recognition also gives a visual warning to indicate if people are moving close to the road, up to a distance of 100 metres ahead. This means that the driver can recognise potential danger significantly earlier and react more quickly. The new Acute Warning system helps in imminently critical situations, thereby offering even greater safety.

The images shown here are representative of equipment offered as individual features are specific to every BMW. Depending on the model, the Control Display and presentation of content may differ.

* May not be available in all countries. Please consult your BMW partner.
[1] Visibility of the display is limited with polarised sunglasses.
[2] Not available for xDrive models.

BMW EFFICIENT DYNAMICS – MAKING A LITTLE GO A LONG WAY.

For BMW, the focus is always on delivering quintessential BMW driving pleasure. The pioneering BMW EfficientDynamics strategy, used across the entire model range, supports this goal using innovative technologies that minimise the vehicles' fuel consumption and emissions while at the same time enhancing dynamic performance and driving enjoyment.

It's a comprehensive technology package that encompasses the engine, energy management and the vehicle concept – and is standard in every BMW.

The new generation of petrol and diesel engines in the BMW TwinPower Turbo family is responsible for the improved performance and the reduction in emissions. Optimised aerodynamics and BMW EfficientLightweight contribute to increased efficiency. The BMW intelligent lightweight construction concept is all about using the right material in the right place, in order to lower weight, increase rigidity and thus achieve maximum agility.

BMW is leading the charge in terms of innovation in this area and is the only major car manufacturer that uses ultralight and highly rigid carbon fibre (CFRP). BMW also focuses on forward-thinking drive train concepts such as the BMW eDrive technology with a 100% electric powerplant, as well as plug-in hybrid models.

Overall, the technology package encompasses a multitude of optimisation measures in every BMW. Other features such as the ECO PRO mode, the Automatic Start/Stop function, the optional eight-speed Steptronic transmission and Brake Energy Regeneration also contribute to reductions in fuel consumption and emissions. Included as standard in every BMW.

BMW EFFICIENT DYNAMICS INNOVATIONS IN THE BMW 5 SERIES SALOON AT A GLANCE.

The **Automatic Start/Stop function** temporarily switches of the engine during short vehicle stops such as traffic lights or in traffic jams to reduce fuel consumption. When the clutch (manual) or the brake (Steptronic) is applied, the engine starts up again automatically and within fractions of a second.

BMW TwinPower Turbo technology combines the petrol engines with a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection. With the diesel engines, CommonRail direct injection combines a turbocharger (535d and 525d with two-stage turbocharging) with variable turbine geometry. These measures significantly reduce fuel consumption in all powerplants, while, at the same time, considerably increasing power across a wide speed range.

With **Brake Energy Regeneration**, the alternator generates electricity mainly when the driver lifts off the accelerator pedal or applies the brakes. The kinetic energy this develops is converted into electric power and fed into the battery.

Unlike conventional hydraulic systems, **Electric Power Steering** uses energy only when the steering wheel is turned. On straight roads, the electric motor remains inactive.

Aerodynamics. Carefully optimised aerodynamics measures ensure an excellent drag coefficient and, therefore, a positive effect on overall efficiency. A host of features contribute. They include flat underbody panelling, the optimised design of the front apron and air intakes and airflow management in the wheel-arches.

The **Optimum Shift Indicator** recommends the most suitable gear for fuel-efficient driving. The system also recommends when to shift up or down and adapts to individual driving behaviour.

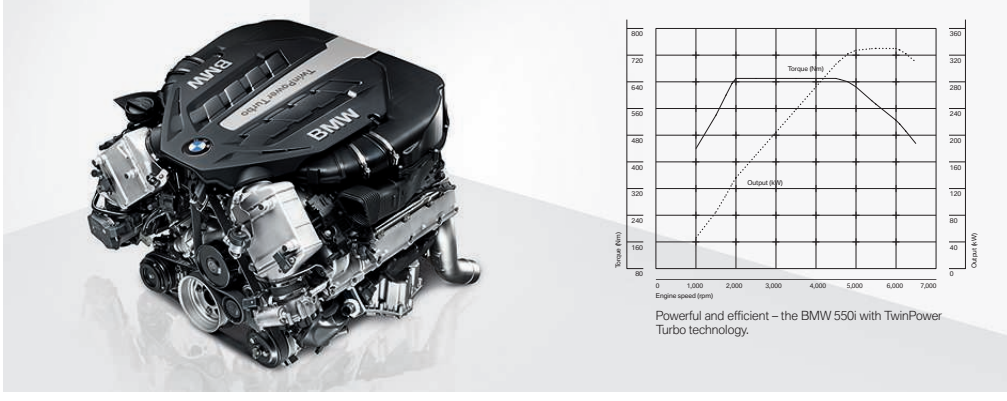
The **eight-speed Steptronic transmission** provides significantly higher gearshifting and driving comfort thanks to closely defined gear ratios and minimised changes in engine speed at each transition. This also leads to a perceptible increase in dynamism and reduced fuel consumption. Additionally, a gear lever allows manual shifts.

Fuel-consumption-friendly **ECO PRO mode** adapts accelerator pedal and gearbox responses while also moderating the heating/air conditioning systems. ECO PRO tips further improve fuel efficiency with suggestions that optimise driving behaviour with the bonus range function indicating how many extra kilometres have been gained in the process. The results, depending on driving style, can lead to reductions in fuel consumption by up to 20 per cent. An additional five per cent saving is possible through the Coasting function, Route-Ahead Assistant and, in conjunction with the Steptronic transmission and the Navigation System Professional, ECO PRO Route. The savings potential quoted relates to the findings of internal BMW studies.

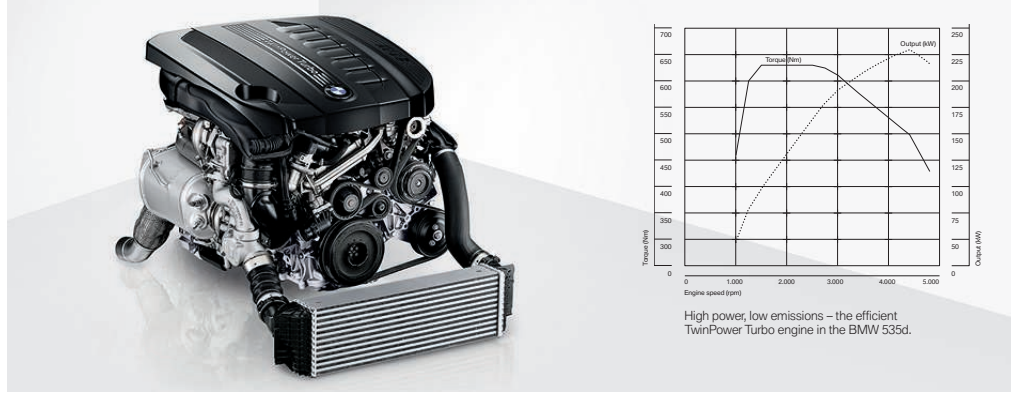
EVERYTHING REVOLVES AROUND JOY. SEVERAL THOUSAND TIMES PER MINUTE.

The **petrol engines.** Power, refinement and superb revving ability are the hallmarks of every BMW engine. It follows, naturally, that the engines available for the BMW 5 Series are all in line with the BMW EfficientDynamics philosophy. The guiding objective is to deliver power to the road while reducing fuel consumption and CO_2 emissions to a minimum. So whatever engine you choose, you can be certain of complete driving pleasure – for all the right reasons.

The **diesel engines.** All BMW 5 Series diesel engines are equipped with BMW TwinPower Turbo technology and impress with their refined power and the highest efficiency. The latest CommonRail technology ensures running smoothness and fuel economy combined with immediate responsiveness and enormous revving ability. All variants feature lightweight aluminium design and, of course, are fitted with a maintenance-free particle filter as standard. BMW BluePerformance technology, which significantly reduces nitrogen oxide emissions, is also standard. Additionally, with this feature, the vehicles comply with the EU6 emissions directive.



Powerful and efficient – the BMW 550i with TwinPower Turbo technology.



High power, low emissions – the efficient TwinPower Turbo engine in the BMW 535d.

BMW 550i.
The top of the range BMW TwinPower Turbo V8 engine combines two turbochargers with Valvetronic, Double-VANOS and High Precision Injection. This delivers a full 650Nm of maximum torque between 2,000 and 4,500rpm. The engine, with its 330kW (450hp), accelerates the vehicle from 0 to 100km/h in an impressive 4.6 seconds. And thanks to High Precision Injection, fuel is used with the utmost efficiency.

BMW 535i.
The 3.0-litre BMW TwinPower Turbo inline six-cylinder petrol engine combines Valvetronic, Double-VANOS and High Precision Injection with a TwinScroll turbocharger. The intelligent innovations package delivers average fuel consumption of just 8.0–8.4l per 100km[1], CO_2 emissions of 186–196g/km[1] and impressive performance values: 225kW (306hp), max. torque of 400Nm and acceleration from 0 to 100km/h in only 5.8s. Top speed is 250km/h (restricted).

BMW 528i.
The BMW TwinPower Turbo four-cylinder petrol engine offers its peak torque of 350Nm at an extremely low 1,250rpm. And, thanks to BMW TwinPower Turbo technology, which combines a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection, the 180kW (245hp) powerplant accelerates the vehicle from 0–100km/h in 6.2s. Maximum speed is 250km/h (restricted); average fuel consumption is 6.6–7.0l per 100km[1]; CO_2 emissions are 154–164g/km[1].

BMW 520i.
The BMW TwinPower Turbo four-cylinder petrol engine, with its 2.0-litre capacity, deploys a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection. This results in powerful character and, at the same time, high efficiency. Output of 135kW (184hp) and maximum torque of 270Nm enables acceleration from 0 to 100km/h in 7.9s and a top speed of 235km/h. Combined fuel consumption is 6.4–6.8l per 100km[1] and CO_2 emissions are 149–159g/km[1].

BMW 535d.
With its BMW TwinPower Turbo technology, the range-topping diesel combines CommonRail direct injection and two-stage turbocharging with variable turbine geometry. The inline six-cylinder engine, which delivers its maximum torque of 630Nm at 1,500–2,500rpm and generates 230kW (313hp), appeals with its smooth running and extremely spontaneous responses. The other key facts on this engine, also available as a BMW 535d xDrive version: 0–100km/h in 5.3s (535d xDrive: 5.1s), average fuel consumption of 5.3–5.6l (535d xDrive: 5.6–6.0l) per 100 kilometres[1]. In addition, the all-wheel drive system improves traction and tracking stability.

BMW 530d.
The BMW TwinPower Turbo inline six-cylinder diesel engine, with a 3.0-litre capacity, combines CommonRail direct injection and a turbocharger with variable turbine geometry. At just 1,500rpm, the engine develops 190kW (258hp) and impressive torque of 560Nm. The sprint from 0 to 100km/h takes 5.8s (530d xDrive: 5.7s). Average fuel consumption is only 5.1–5.5 litres per 100km[1] (530d xDrive: 5.4–5.8l) and CO_2 emissions average at a low 134–144g/km[1] (530d xDrive: 142–152g/km[1]).

BMW 525d.
The new-generation BMW TwinPower Turbo four-cylinder diesel engine with its 2.0-litre capacity and 160kW (218hp) output combines CommonRail direct injection and 2-stage turbocharging with variable turbine geometry. Maximum torque of 450Nm is reached at 1,500rpm. The BMW 525d reaches 100km/h from a standing start in 7.0s and top speed is 248km/h. Combined consumption: 4.9–5.3l of diesel per 100 kilometres[1]. Combined CO_2 emissions: 129–139g/km[1].

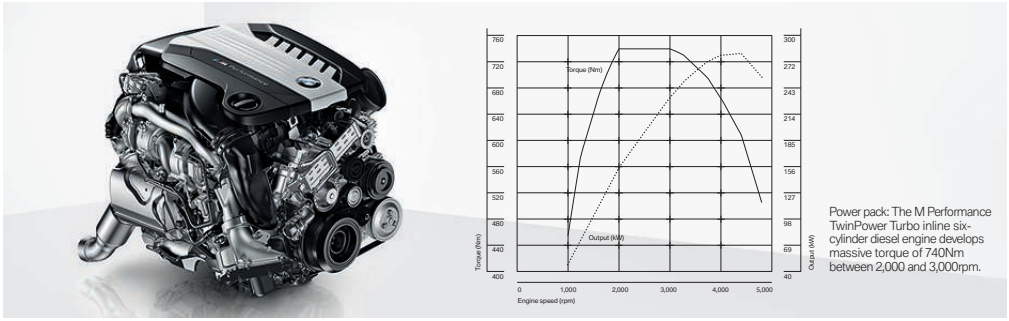
BMW 520d.
The new BMW TwinPower Turbo four-cylinder diesel engine generates an impressive 140kW (190hp) output from its 2.0-litre displacement. It combines CommonRail direct injection and a turbocharger with variable turbine geometry and, with its 400Nm of peak torque accessible between 1,750 and 2,500rpm, reaches the 100km/h mark from a standstill in 7.9s (520d xDrive: 7.9s). Top speed is 236km/h. Fuel efficiency: 4.3–4.7l (520d xDrive: 4.5–4.9l) per 100km[1]; CO_2 emissions: 114–124g/km[1] (520d xDrive: 119–129g/km[1]) in the combined cycle. Additionally, the all-wheel system BMW xDrive increases traction and directional stability.

BMW 518d.
The new-generation BMW TwinPower Turbo four-cylinder 2.0-litre diesel engine promises driving pleasure combined with efficiency and low emissions. It delivers output of 110kW (150hp) and max torque of 360Nm. Such effective performance development is down to CommonRail direct injection and a turbocharger with variable turbine geometry. The BMW accelerates from 0 to 100km/h in 9.5s and goes on to a top speed of 218km/h. Combined fuel consumption, depending on model, is between 4.3 and 4.7l/100km[1]. CO_2 emissions are between 114 and 124g/km[1], according to model.

[1] Fuel consumption and CO_2 emissions are dependent on wheel and tyre size.
For more information, please see pages 64/65.

THE BMW M550d xDRIVE. M GENES INCLUDED.

powered by M



Power pack: The M Performance TwinPower Turbo inline six-cylinder diesel engine develops massive torque of 740Nm between 2,000 and 3,000rpm.

BMW M550d xDrive. The M Performance TwinPower Turbo inline six-cylinder diesel engine combines CommonRail direct injection and unique three-stage turbocharging with variable turbine geometry. Maximum torque of a thrilling 740Nm is available at low revs and across a broad power band while output reaches a peak of 280kW (381hp). These characteristics all ensure exceptionally spontaneous dynamism and acceleration from 0–100km/h in just 4.7 seconds. Such high performance alongside average fuel consumption of 6.2 litres per 100km[1] and CO_2 emissions of 162g/km[1] reveals an excellent performance/efficiency ratio. It all emphasises, once again, the innovative power of BMW.

[1] Fuel consumption and CO_2 emissions are dependent on wheel and tyre size. For more information, please see pages 64/65.

Steptronic sport transmission with gearshift lever featuring the M logo.

Tailpipes. The tailpipes on the left and right each come with a dark chrome trapezoid surround.

M550d badging makes a powerful impression for the top model in the BMW 5 Series range.

BMW ACTIVE HYBRID 5.
THE MOST DYNAMIC WAY TO DRIVE A HYBRID.

Can a car become more efficient while, at the same time, deliver even greater dynamics? Yes it can. As demonstrated by the BMW ActiveHybrid 5. With its intelligent drive concept, the first full hybrid BMW saloon represents the next generation of BMW ActiveHybrids. The BMW ActiveHybrid 5 offers superior agility and unique design along with the perfect combination of dynamics and elegance. Thanks to intelligent energy management, it enables functions such as purely electric driving over distances of up to three to four kilometres at up to 60km/h as well as coasting at up to 160km/h with the engine off. More intense acceleration, available via the Boost function, complements the sustainability concept. With overall system output of 250kW (340hp), the vehicles consumes, on average, just 6.4–7.0 litres of fuel per 100km[1] and emits 149–163g of CO_2 per kilometre[1].

Stationary climate control. This can be used to make the air conditioning cool the BMW ActiveHybrid 5 a few minutes before you get inside. It is done by the electric air conditioning compressor so not a drop of fuel is burnt. The system can easily be activated from a distance with the key fob remote.

Lithium-ion high-performance battery. This supplies, with maximum efficiency, the energy needed for pure electric driving in the BMW ActiveHybrid 5. The innovative battery is also charged on every journey by Brake Energy Regeneration as soon as you lift off the accelerator or apply the brakes. The lithium-ion high-performance battery has a long service life and comes with a certificate guaranteeing its performance for the first 100,000km for a maximum of five years.

Performance Hybrid. The BMW TwinPower Turbo six-cylinder inline petrol engine in combination with the electric motor in the BMW ActiveHybrid 5 ensures significantly reduced fuel consumption and maximum dynamism.

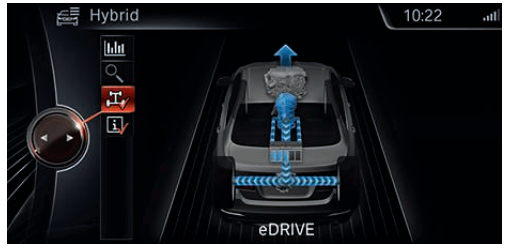
Eight-speed Steptronic transmission. Very closely defined gear ratios allow better utilisation of the optimum rev range and ease of use. In combination with the electric drive functions, it offers significantly more driving comfort with considerably reduced fuel consumption and emissions.

☐ **18" light alloy wheels Streamline 364,** 8 J x 18 with 245/45 R 18 tyres. Innovative and aerodynamically optimised. (17" light alloy wheels V-spoke 236 as standard).

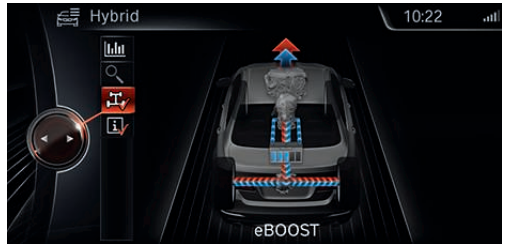
■ **Active Hybrid 5 designation** on the C-pillar directly behind the Hofmeister kink, on the front doorsills and, inside, on the aluminium trim of the centre console cupholder cover.

■ The **aluminium doorsill finishers** mark the threshold to a particularly elegant and exquisite finished interior.

■ ActiveHybrid 5 **badging** to the rear of the Hofmeister kink.



■ **Electric driving.** When ECO PRO mode is activated via the **Driving Experience control switch**, the 40kW electric motor enables driving solely on electric power over distances of up to three to four kilometres. Also in this mode, when the driver lifts off the accelerator, the transmission interrupts the flow of power to the engine and switches it off. The BMW then glides along in near-silence at up to 160km/h. In COMFORT mode, the vehicle coasts at up to 80km/h.



■ The **Boost function** enables particularly dynamic acceleration – during overtaking moves, for instance – by engaging the power of the electric motor to support the engine. A graphic in the Control Display shows that the electric motor boost function is active. The system draws on stored energy created by Brake Energy Regeneration.

[1] Fuel consumption and CO_2 emissions are dependent on wheel and tyre size.
For more information, please see pages 64/65.

■ Standard equipment ☐ Optional equipment

THE BEST PLATFORM FOR DRIVING DYNAMICS. AN OUTSTANDING CHASSIS.

A wide range of innovative technology in the BMW 5 Series Saloon ensures that you thoroughly enjoy every journey. Many features are also intelligently networked, allowing you to experience maximum driving pleasure in the utmost safety.

Integral Active Steering, for rear-wheel drive vehicles, combines steering rear wheels with a variable steering-transmission ratio on the front axle. At up to 60km/h, the rear wheels steer in the opposite direction to the front wheels. This makes the wheelbase feel like it is shorter and thus improves manoeuvrability and agility. From about 60km/h, the rear wheels steer in the same direction as the front wheels. The resulting impression of a longer wheelbase enhances driving stability and comfort, which is particularly welcome when fast and abrupt lane changes are needed.

Adaptive Drive combines the active chassis control systems, Dynamic Drive and Dynamic Damper Control. Sensors constantly monitor speed and steering wheel angle as well as lateral and longitudinal acceleration of the vehicle. Based on this data, the stabiliser and shock absorber settings are regulated. This results in precise steering responses, shorter braking distances and, at the same time, increased ride comfort.

Optional **Dynamic Damper Control** allows the driver to ideally match the shock absorber characteristics to the driving situation. In addition to the standard COMFORT setting, there are two other programmes with this option. With COMFORT+ (not for M550d xDrive), the shock absorbers give a soft ride, reducing motion of the car to a minimum, especially on bumpy roads. In SPORT/SPORT+, the shock absorbers are set to a firmer position, for a sporty ride.

The standard **Driving Experience Control switch incl. ECO PRO** in the centre console allows you to select your desired mode at the touch of a button. In COMFORT mode, the engine and transmission remain in their standard settings. ECO PRO mode is orientated towards efficiency. And SPORT mode puts the focus on even more dynamic driving.

The intelligent **BMW all-wheel system xDrive** adapts to even the most difficult road situations by always offering maximum possible traction. With xDrive and Dynamic Stability Control (DSC), your vehicle remains stable and on track. xDrive distributes power between the axles in fractions of a second for optimum roadholding.

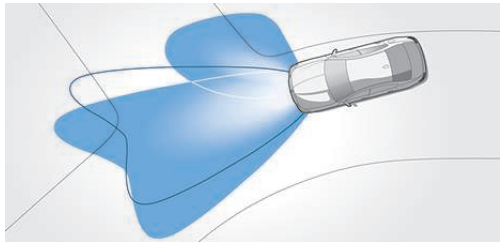
The **eight-speed Steptronic Sport transmission** adapts to your individual driving and offers a spectrum ranging from comfortable gliding through to the most dynamic driving style. Along with automatic gear selection, it is also possible to make make manual shifts via a shortened selector lever or paddles on the Sport leather steering wheel.

With **Dynamic Stability Control (DSC)**, sensors constantly monitor driving status and, as necessary, modify directional stability and traction by intervening in the engine and brake management systems. This makes it easier to handle the vehicle, even in difficult road conditions, and actively enhances driving safety and therefore driving pleasure.

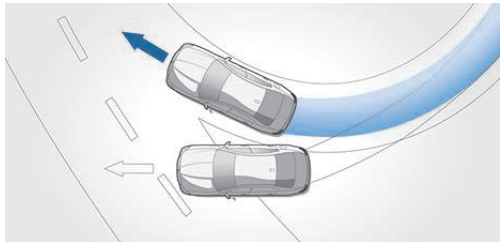
Passive safety. Thanks to targeted selection of materials, a high-strength structure and an intelligent lightweight construction concept, the body of every BMW meets the highest requirements of passive safety and, in conjunction with highly efficient restraint systems, ensures maximum possible occupant protection. They are also designed in accordance with the leading crash tests carried out by independent institutions.

MORE SAFETY. MORE DRIVING PLEASURE.

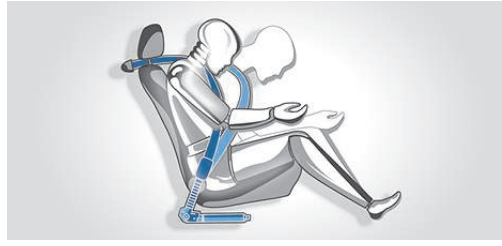
The BMW 5 Series Saloon is full of cutting-edge technology that can always be relied on. Superb handling characteristics and innovative equipment come as standard, giving the driver exactly the right support for any situation. It all means that you can feel safe in all road conditions.



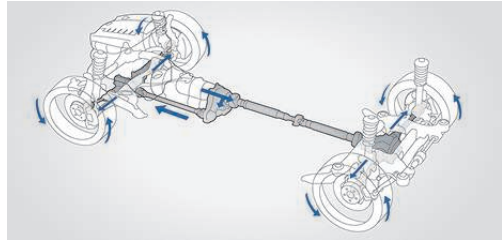
☐ **Adaptive Headlights** with variable light distribution for city and motorway, BMW Selective Beam (anti-dazzle High-Beam Assistant), automatic full and dipped beam as well as Bi-Xenon technology provide optimum illumination of the road ahead. The cornering lights are activated automatically by the steering angle or when the indicators are switched on, even when the car is stationary.



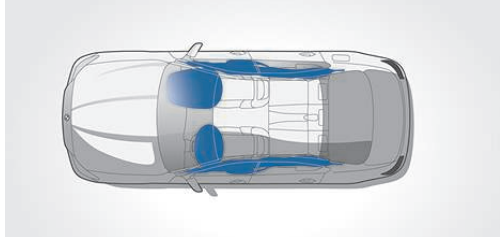
■ **Dynamic Stability Control (DSC)** features sensors that constantly monitor driving status and, as required, optimises directional stability and traction by intervening in the engine and brake management systems. This makes it easier to handle the vehicle, even in difficult road conditions, and actively enhances driving safety and therefore driving pleasure.



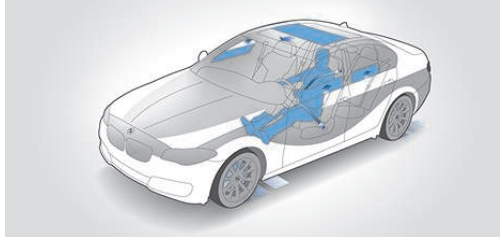
■ **BMW restraint system** for driver and front passenger comprises three-point seat belts, belt tensioners and belt-force limiters to ensure the most effective restraining effect in a collision. To avoid incorrect use, the rear seat belt buckles are coded.



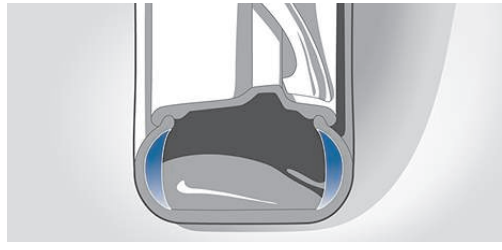
☐ The intelligent **BMW all-wheel system xDrive** adapts perfectly to even difficult road conditions by always providing the required extra traction. With xDrive and Dynamic Stability Control (DSC), your vehicle remains stable and on track. xDrive distributes drive power flexibly between the vehicle's axles in fractions of a second for optimum road-holding. This allows xDrive to combine the advantages of all-wheel drive – traction, directional stability and driving safety – with typical BMW agility.



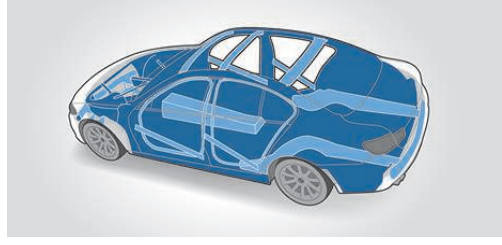
■ **Airbags** for the driver and front passenger are central, precisely coordinated safety features in your BMW. Driver and front passenger airbags, the Curtain System with head airbags as well as front seatback-integrated side airbags provide effective protection for you and your passengers in the event of a collision.



☐ **Active Protection** is the preventative occupant protection system from BMW ConnectedDrive. In critical situations, for example, the safety belts are pre-tensioned, the seats are moved to an upright position and the windows are closed. Following an accident, the vehicle can also be automatically braked to a standstill. Additionally, Attention Assistant monitors driving behaviour for signs of fatigue. The system also analyses steering input, picks up on irregularities and responds with a recommendation to take a break shown in the Control Display.



☐ **Runflat tyres.** In the event of a puncture, reinforced sidewalls mean the tyres stay on the rim so you can get to the nearest workshop.
■ **Tyre Pressure Display**. This keeps the driver informed of pressure loss by means of a sensor. The air temperature is also monitored.



■ **Passenger cell**. Thanks to the directions of the beams and node joints and selective use of high-strength materials, this functionally designed structure provides maximum passive safety in the event of front, side or rear impact.

■ Standard equipment ☐ Optional equipment

THE BMW 5 SERIES SALOON.

The cockpit with its centre console inclined towards the driver demonstrates typical BMW driver orientation. The Radio Professional and 6.5" flat-screen colour display are already included as standard and the multifunction Sport leather steering wheel, with its excellent grip, is optional. Automatic, two-zone climate control as well as superb craftsmanship further enhance the sense of well being.

The BMW 5 Series Saloon comes, as standard, with diagonal upholstery cloth in Anthracite (pictured: Veneto Beige Dakota leather) as well as the high-gloss Black interior trim. The BMW also offers plenty of storage space, including two cupholders in the centre console and compartments in the doors.

The BMW 5 Series Saloon comes with 17" light alloy wheels V-spoke 236 as standard. BMW 550i and BMW 550i xDrive models feature 18" light alloy wheels V-spoke 328 as standard.

The BMW 520i Saloon in the optional exterior colour Imperial Blue metallic.

THE LUXURY LINE BMW 5 SERIES SALOON.

Luxury Line interior equipment:

- ■ Illuminated front and rear doorsill finishers with aluminium insert and BMW logo (not for ActiveHybrid 5)
- ■ Seats in Black, Veneto Beige or Oyster Dakota leather, each with exclusive stitching
- □ Seats in Black, Mocha or Ivory White exclusive Nappa leather, each with exclusive stitching
- ■ Fine-wood trim Fineline Anthracite
- □ Interior trim in fine-wood Ash Grain Brown with inlays and accent trim in high-gloss chrome
- ■ Sport leather steering wheel
- □ M leather steering wheel
- ■ Key fob with chrome insert
- ■ Seat heating for driver and front passenger
- □ BMW Individual extended fine-grain Merino leather equipment

Luxury Line exterior equipment:

- ■ 18" light alloy wheels Multi-spoke 454
- □ 19" light alloy wheels Multi-spoke 455 with mixed tyres
- ■ Front and rear bumpers with trim elements in chrome
- ■ BMW kidney grille with chromed vertical bars
- ■ LED fog lights
- ■ Luxury logo on the side

The M Sport package BMW 535i Saloon in the exclusive Carbon Black metallic exterior colour.

■ Standard M Sport package equipment □ Optional M Sport package equipment

BMW Individual

The expression of personality.

BMW Individual paint finish
Frozen Bronze metallic.

The BMW 5 Series Saloon. Inspired by BMW Individual.

☐ Driving a BMW is, in itself, a mark of character. There are those who still, however, want their vehicles to be even more individual reflections of their personality. The BMW Individual Collection and the BMW Individual Manufaktur meet these needs by opening up seemingly limitless opportunities for differentiation.

Precisely in tune with each model, the BMW Individual Collection offers a highly exclusive selection of equipment options. Fascinating paint finishes either refracting the light or with a matt effect. Leather, unique in colour and scope of application, perfected with clever contrasts and decorative stitching. Interior trims in the most exclusive fine woods, the immaculate Piano finish and the finest leather.

And yet even this can be surpassed – thanks to the BMW Individual Manufaktur. Here, there is only one goal: realising almost any customer request, even the most personal, with stylish, hand-crafted perfection.

BMW Individual fine-wood trim Sen Light Brown and leather-covered instrument panel.

BMW Individual extended fine-grain Merino leather Cashmere Beige, fine-wood trim Piano finish Black, wood inlay for the leather steering wheel and leather-covered instrument panel.

Please note that, over time, even correct use can lead to unrecoverable upholstery damage. This can be caused, in particular, by non-colourfast clothing.

These pages show the colours and materials available for the BMW 5 Series Saloon. Use them to identify your favourite colours or compare various combinations. These colour samples are meant to give a first impression of paints and materials. Experience has shown, however, that printed versions of paint, upholstery colours and interior trims cannot in all cases faithfully reproduce the appearance of the originals. We therefore recommend that you consult your BMW partner on your preferred colour choices. They will be happy to show you samples and assist with special requests.

BMW Individual | Optional equipment | Standard equipment | • Recommended colour combinations | — Not available

[1] With high-gloss chrome accent trim.
[2] Standard for all except ActiveHybrid 5, 550i, 550i xDrive and M550d xDrive.
[3] Standard for 550i, 550i xDrive, M550d xDrive, 535d, 535d xDrive, 535i, 535i xDrive, ActiveHybrid 5.

Standard / Optional equipment.

☐ **Adaptive LED Headlights** with BMW Selective Beam (anti-dazzle High-Beam Assistant), cornering lights and adaptive lights. Their bright colour approximates daylight for optimum illumination of the road, improved visibility and reduced tiredness when driving at night. The four LED light rings present an unmistakable look.
■ **Xenon Headlights** for high and low beam, including headlight washing system and accent lights, automatic headlight range control as well as parking, standing and daytime-running lights using four LED light rings.

■ The design of the **rear lights** is instantly recognisable, even at long distances, thanks to distinctive, finely drawn horizontal light strips in LED technology.

■ **Wing mirrors**, elec. adjustable, with indicators in LED tech.
☐ **Interior mirror and wing mirrors:** automatic anti-glare, incl. mirror memory[1]. Automatic parking function for passenger-side wing mirror and electric fold-in function for both wing mirrors.

☐ **LED foglights** harmoniously complement the colour of the LED or Xenon Headlights. The bright white light also increases safety when visibility is poor.

■ **Rain sensor** incl. automatic headlight activation ensures optimum visibility in the rain and the onset of darkness. The interval speed of the windscreen wipers is regulated according to rain intensity and, when needed, the low beam comes on automatically.
☐ **BMW Selective Beam** (anti-dazzle High-Beam Assistant) continuously adjusts the high beam according to traffic for optimum illumination of the road.

☐ **Glass roof** slide and tilt with fingertip control, electrically adjustable floating headliner, trap release and comfort opening/closing function allowing personal control of the airflow for a pleasant interior climate. An integrated automatically extending wind deflector ensures high acoustic comfort. The glass roof can also be operated from outside using the key fob remote control.

☐ **BMW Individual high-gloss Shadow Line** with numerous details in high-gloss black: front and rear side window trim, window recess covers front and rear, window guides on the rear doors and wing mirror frames.

☐ **BMW Individual Exterior Line in satinated aluminium** features window side frames and window recess covers in satinated aluminium. Additionally, many details are finished in high-gloss black: wing mirror frames, base and triangle, B-pillar trims and rear-door window guides.

■ **The headlight washing system** ensures optimal illumination in all weathers. Headlights are automatically cleaned in parallel with the windscreen when the windscreen wash function is activated.

☐ **xDrive.** The intelligent all-wheel system distributes power continuously and variably to the front and rear wheels for increased traction, directional stability and driving safety in every situation.

■ **Tail pipes**, featuring single pipes, left and right, for 535i, 535i xDrive, ActiveHybrid 5, 535d and 535d xDrive. Twin tailpipes, left, for 520i, 528i, 528i xDrive, 518d, 520d, 520d xDrive, 525d, 525d xDrive, 530d and 530d xDrive.

■ **Tail pipes**, trapezoid-shaped, left and right for 550i, 550i xDrive and M550d xDrive.

[1] Only in conjunction with electric seat adjustment.

■ Standard equipment ☐ Optional equipment

Standard / Optional equipment.

☐ **17" light alloy wheels Multi-spoke 456**, 8 J x 17 with 225/55 R 17 runflat tyres.

■ **17" light alloy wheels V-spoke 236**, 8 J x 17 with 225/55 R 17 tyres.

☐ **17" light alloy wheels Streamline 363**, 8 J x 17 with 225/55 R 17 tyres.

☐ **18" light alloy wheels Turbine styling 452** in Bicolour Ferric Grey. 8 J x 18 with 245/45 R 18 runflat tyres

☐ **18" light alloy wheels Double-spoke 609,** with mixed, runflat tyres. Front: 8 J x 18 with 245/45 R 18 tyres. Rear: 9 J x 18 with 275/40 R 18 tyres.

☐ **18" light alloy wheels V-spoke 328**, 8 J x 18 with 245/45 R 18 runflat tyres. (Standard for 550i and 550i xDrive.)

☐ **18" light alloy wheels Streamline 364**, 8 J x 18 with 245/45 R 18 runflat tyres.

☐ **19" light alloy wheels Turbine styling 453** in Bicolour Ferric Grey with mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.

☐ **19" light alloy wheels Double-spoke 610,** Bicolour with mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.

☐ **19" light alloy wheels V-spoke 366** with mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.

Luxury Line.

■ **18" light alloy wheels Multi-spoke 454**, 8 J x 18 with 245/45 R 18 runflat tyres.

☐ **19" light alloy wheels Multi-spoke 455**, with mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.

M Sport package.

☐ **19" light alloy wheels Double-spoke 351 M** wth mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres. (Standard for M550d xDrive.)

■ **18" M light alloy wheels Double-spoke 613 M** with mixed, runflat tyres. Front: 8 J x 18 with 245/45 R 18 tyres. Rear: 9 J x 18 with 275/40 R 18 tyres.

BMW Individual.

☐ **BMW Individual 19" light alloy wheels V-spoke 349 I** with mixed, runflat tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.

■ Standard equipment ☐ Optional equipment

Standard / Optional equipment.

■ **Leather steering wheel,** three-spoke.
☐ **Steering wheel heating** is a particularly welcome comfort feature in winter. The steering wheel rim can be warmed up within seconds at the touch of a button.

☐ **M leather multifunction steering wheel** incl. larger thumbrests and a thicker rim for better grip and a more sporty look (gearshift paddles only in conjunction with Steptronic sport or Steptronic transmission with gearshift paddles).

☐ **Sport leather steering wheel**, three-spoke, multifunction and with chrome inserts.

☐ **BMW Individual leather steering wheel** with Piano finish Black wood ring inlay.[1]

■ **The six-speed manual transmission** enables a very sporty driving style with smooth, perfectly defined ratios for enjoyably precise, short-throw shifting. The closely spaced gearing – according to driving style – allows even more individual use.

☐ **Eight-speed Steptronic transmission.** This provides significantly higher gearshifting and driving comfort thanks to closely defined gear ratios and minimised changes in engine speed at each transition. This also leads to a perceptible increase in dynamism and reduced fuel consumption. Additionally, a gear lever allows manual shifts. (Standard for ActiveHybrid 5, 550i, 535d, 530d and all xDrive models).

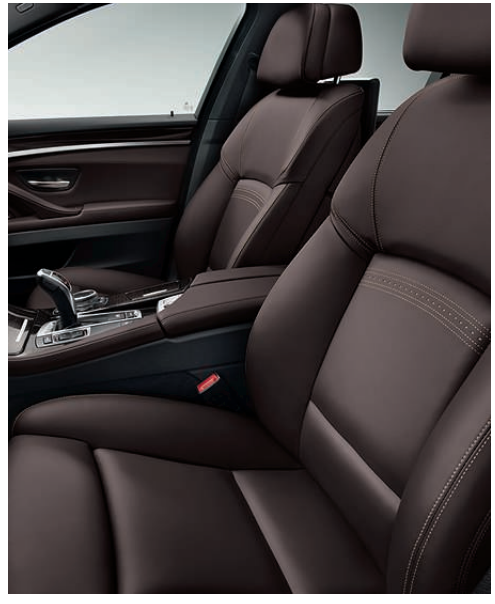
☐ **Eight-speed Steptronic sport transmission** with electronic gear selection and Adaptive Transmission Management for dynamic and, at the same, efficient driving. Gearshifts can also be made manually via a dynamically designed selector lever or gearshift paddles on the steering wheel (Standard for M550d xDrive).

■ **Driving Experience Control switch incl. ECO PRO mode** in the centre console. Allows you to select your desired mode at the touch of a button. In COMFORT mode, the engine and transmission remain in their standard settings. ECO PRO mode is orientated towards efficiency. SPORT mode puts the focus on even more dynamic driving. The active setting is shown beneath the speedometer.

[1] Wood ring inlay is similar to the BMW Individual interior trim version.

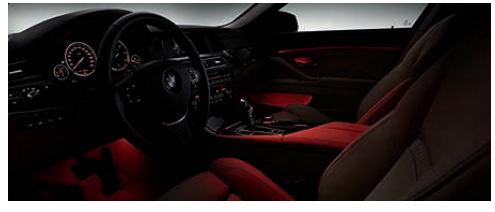
■ **Standard seats** for driver and front passenger, with electric adjustment for seat height and backrest angle. The driver's seat angle is also electrically adaptable. Fore and aft seat positioning and headrest heights are manually adjustable.
☐ **Seat heating** for driver and front passenger. With three heating levels for seat surfaces and backrests.

☐ **Sport seats** for driver and front passenger offer optimum lateral support. Seat height, backrest and seat angle are electrically adjustable. Thigh support is manually adjustable.



☐ **Comfort seats** for driver and front passenger incl. active headrests and electrical adjustment. The upper backrests, backrest widths, thigh supports and headrest heights can all be adjusted. Lumbar support and memory function for driver and front passenger also included.
☐ **Active seats** for driver and front passenger ensure relaxed travel even on long journeys thanks to alternating up and down movement of the seat surface.
☐ **Active front seat ventilation** for a pleasantly cool seat temperature and noticeably more comfort.

☐ **Electric seat adjustment** with memory function allows desired configurations of the seat, steering wheel position and wing mirrors to be saved. Settings can be restored at any time. Memory function only for driver's seat. (Standard for 550i, 550i xDrive and M550d xDrive)
☐ **Lumbar support** for driver and front passenger, electrically adjustable for height and depth for an ergonomically perfect seating position.



☐ **Ambient Lighting** provides illumination in areas including the front centre console, all door pockets and door panels, door openers, door exit areas and the exterior door handles. Either a brighter white or a muted orange light can be selected. (Standard for 550i, 550i xDrive, ActiveHybrid 5 and M550d xDrive).
■ **Interior lighting** includes two make-up lights and two front footwell lights, four door exit lights, rear reading lights as well as illumination in the luggage compartment and glove box.

■ Standard equipment ☐ Optional equipment

Standard / Optional equipment.

☐ **Driving Assistant** combines the Lane Departure Warning and Approach Warning systems. The Approach and Pedestrian Warning with City Brake Activation issues a warning between 10 and 60km/h if there is a risk of collision with vehicles or pedestrians and brakes the vehicle in the event of an emergency. From speeds of approx. 70km/h, Lane Departure Warning alerts the driver to an unintentional lane change via a slight vibration in the steering wheel.

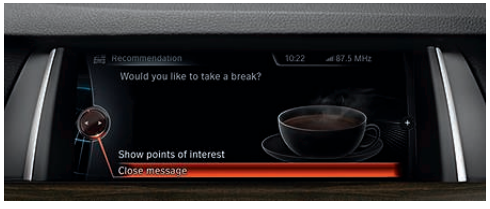
☐ **Driving Assistant Plus** with Approach Control Warning and Lane Departure Warning plus Active Cruise Control with the Stop&Go function and Traffic-queue assistant[1]. With these features, Driving Assistant Plus increases safety and comfort in motorway driving. A Steptronic transmission and the Navigation System Professional are required for Driving Assistant Plus and the Traffic-queue assistant.

☐ **Active Cruise Control with Stop&Go function** incl. Approach Control Warning with braking function. This system maintains a pre-selected distance from the vehicle ahead, automatically adjusts the speed through to a standstill and re-accelerates up to the chosen speed.

☐ **Lane Change Warning** detects, at speeds from 20km/h, a vehicle in the driver's blind spot or approaching in the overtaking lane and alerts the driver with a warning symbol in the wing mirror. If the driver still intends to change lane, steering wheel vibration and a flashing symbol warns of the potentially critical situation.

☐ **Speed Limit Info** detects speed limits and information on overtaking restrictions and shows them in the Info Display in the instrument cluster or the full-colour BMW Head-Up Display[3]. The Navigation System Business or Professional is required for use.

■ **ECO PRO mode** reduces fuel consumption by up to 20 per cent depending on individual driving style. An additional five per cent in savings can be achieved with the Coasting function, Route-Ahead Assistant and ECO PRO Route, in conjunction with the Steptronic transmission and Navigation System Professional.



☐ **Active Protection** comprises a number of vehicle safety features. In a critical situation, for example, the safety belts are pre-tensioned, the seats are moved to an upright position and the windows are closed. Following an accident, the vehicle can also be automatically braked to a standstill. Additionally, Attention Assistant monitors the driver's steering input and responds with appropriate recommendations in the Control Display.

[1] Traffic-queue assistant not available for xDrive models.

☐ **BMW Head-Up Display, full-colour**, projects driving-relevant information directly into the driver's field vision (recognition is limited by polarised sunglasses). In this way, focus always remains on the road ahead. Information shown includes current speed, navigation instructions, Speed Limit Info incl. no-overtaking indicator, Check Control messages and infotainment.

■ **Instrument cluster** features five analogue dials – speed, rpm, tank capacity, oil temperature and fuel consumption – as well as an Info Display which, for example, shows the exterior temperature and on-board computer functions.
☐ **Instrument cluster with extended functionality** (shown here) including, among other features, a high-resolution Info Display for showing Check Control functions, navigation instructions and other data as well as information on music tracks being played. When ECO PRO mode is active, ECO PRO tips use graphics to encourage a more efficient driving style (Standard on ActiveHybrid 5).

☐ **Multifunctional Instrument Display** with Black Panel technology and a 10.2" screen (diagonal measure) offers an impressive visual representation of the driving experience. Three different modes and their specific characteristics, adapted with colour and graphics, can be displayed in the instrument cluster. The modes are: COMFORT, ECO PRO and SPORT.

☐ **BMW Night Vision with Dynamic Light Spot** transfers images of people and animals detected by a thermal imaging camera directly to the Control display. Additionally, the system can locate people and larger animals even at long distances and specifically illuminate them in the dark.

☐ **Park Assistant**. The new-generation Park Assistant makes parallel parking easier. Suitable parking spaces are shown in the Control Display and can be selected. The driver then activates the indicators and holds down the PDC button. The system then provides parking support, involving gear selection and control of the steering, accelerator[2] and brakes[2].

☐ **Park Distance Control (PDC)**, front and rear, helps with parking and manoeuvring in confined spaces. When the vehicle approaches an obstacle, there is a warning signal and a visual indication in the Control Display.
☐ **Rear View camera** allows better orientation when reverse parking at speeds below 20km/h.
☐ **Surround View** comprises the Rear View camera with Top View and Side View to offer a panoramic 270-degree perspective. The system provides support in confined situations and when negotiating areas where visibility is limited.

[2] Available for models with Steptronic transmission; Park Assistant not available for xDrive models.
[3] Visibility of the display is limited with polarised sunglasses.

■ Standard equipment ☐ Optional equipment

Standard / Optional equipment.

☐ **iDrive Touch Controller** enables intuitive and convenient operation of the iDrive system. Using the Controller-integrated touchpad, for instance, destination addresses for the navigation system can be entered using your own handwriting while the input is conveniently shown in the Control Display.

☐ **Ceramic application for control functions** include the gear lever, the front Controller surround as well as volume and temperature controls. For a high-quality and unique impression.
■ **iDrive Controller**, within easy reach in the centre console, allows intuitive operation of all integrated iDrive functions via the Control Display.

☐ **Automatic air-conditioning with four-zone regulation**, equipped as automatic air-conditioning with two-zone regulation but with additional air vents in the B-pillars as well as a comfort vent in the centre of the instrument panel for directional or draft-free ventilation. Additionally, the outer rear seats feature individual temperature control complete with display (Standard for 550i, 550i xDrive, ActiveHybrid 5 and M550d xDrive).

■ **Automatic air-conditioning with two-zone regulation** allows independent, automatic temperature control for the driver and front passenger[1]. Includes rear-seat vents, microfilter, fogging sensor, Max-Cool button and park ventilation function.

☐ **Navigation System Business** incl. iDrive Controller, Radio Professional, CD drive and a fixed 6.5" LCD colour monitor. Route guidance is provided by arrow/map display and spoken instruction.

☐ **Navigation System Professional** including hands-free kit, USB interface, 10.2" LCD colour display, Radio Professional with DVD drive and 20GB of memory for features such as Real Time Traffic Information. Operation is intuitive thanks to the iDrive Touch Controller with direct menu control buttons and eight functional bookmarks. The maps are displayed in 3D (standard for ActiveHybrid 5).

☐ **Bang & Olufsen high-end Surround Sound system** includes 16 loudspeakers with 1,200 watts of music power. Dirac Dimensions signal processing also helps ensure outstanding acoustics. Two sound options are featured, Studio and Expanded, along with special lighting effects for the individual speaker frames.

■ **Radio BMW Professional** features a 6,5" colour monitor, iDrive Controller with one-touch buttons, CD drive and MP3 decoder.
☐ **DAB tuner** (Digital Audio Broadcasting) offers all major stations including a wide variety of special interest broadcasts across the entire transmission range and in perfect sound quality thanks to digital reception. DAB+ enabled for even better sound quality.

☐ **Harman Kardon Surround Sound system** with a powerful 600-watt digital amplifer, vehicle-specific equalising, 16 loudspeaker incl. centre speaker, DIRAC signal processing and surround mode creates an aural experience of the highest intensity. An aluminium signature in each of the mirror triangles on the speaker covers is also featured.

☐ **Rear Entertainment Professional**, with two separate 9.2" colour displays (adjustable for angle) and a DVD drive. Allows navigation and use of the internet while the car is being driven (dependent on mobile phone contract). Also features remote control and connections for MP3 players, games consoles and headphones (also wireless).

[1] Separate air volume control is also as standard for the 535i, 535i xDrive, 535d and 535d xDrive.

■ Standard equipment ☐ Optional equipment

Standard / Optional equipment.

☐ **Automatic tailgate operation** for convenient opening and closing of the tailgate. All it takes is a simple press of a button in the car or on the vehicle key. It can also be opened, as usual, using the exterior handle and closed by pushing a button on the inside of the tailgate.

☐ **Soft-close automatic** gently pulls the doors shut.

■ **Personal Profile** stores preferred settings in the third and fourth programmable buttons on your vehicle key. This allows, for instance, settings for temperature and air distribution of the automatic air conditioning as well as seat and wing mirror positions to be activated, depending on the key used. With the third and fourth buttons, additional functions such as follow-me-home lighting, stationary cooling and different opening and closing combinations of the doors and tailgate can be saved and used.

☐ **Comfort Access** allows keyless access to the vehicle via the driver's door, front passenger door and the tailgate. Also includes courtesy lighting of the front and rear exterior door handles as well as contactless opening of the tailgate which involves a small movement of the foot beneath the rear bumper (closes only in conjunction with automatic tailgate operation).

☐ **Through-loading system** includes 60:40-split rear seat backrest for more transportation possibilities and more individual seating and luggage compartment configurations; centre armrest with an integrated storage compartment and two cupholders.

☐ **Sunblinds.** Electric for the rear window and mechanical for the side windows.

☐ **BMW Welt.** Vehicle collection at the BMW Welt is one of the most special moments for any driver. Turn that moment into an unforgettable day with a programme that perfectly matches your requirements. To find out more, please go to
www.bmw-welt.com

☐ **BMW Service Inclusive.** When it comes to service, your BMW partner is also ready with an intelligent solution. With BMW Service Inclusive, there are no additional costs for regular maintenance work within an agreed term or mileage limit. For more information, please go to
www.bmw.com/ServiceInclusive

Original BMW Accessories*.

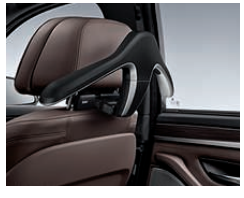
20" M Performance light alloy wheels V-spoke 464 M.

Travel & Comfort System folding table, offers rear passengers a practical surface and is adjustable for both height and incline.

Bicycle/e-bike holder for the trailer tow hitch, for transporting up to two bicycles.

BMW Junior Seat, Group 1, for children from about 10 months to 3.5 years (approx. 9-18kg). Available in two colour choices.

Snap-in adapter for using the telephone or listening to music.



Travel & Comfort system coat hanger for crease-free transport of clothes. Can also be detached for use outside the vehicle.

BMW holder for Apple iPad with base support that attaches to the front seat headrest bars.

Driving a BMW is always a special experience, but it can be made even more so with Original BMW Accessories thanks to their combination of unique ideas, supreme functionality and clever design. Discover a wide range of innovative features for the exterior and interior as well as for communication and information. There are also many solutions for transportation and the luggage compartment. Your BMW Service partner will be pleased to advise you on the complete range of Original BMW Accessories and will have a special catalogue waiting for you. For more information please visit
www.bmw.com/accessories

All dimensions in millimetres. Luggage compartment volume 520 litres (ActiveHybrid 5: 375 litres).

[1] The figure quoted includes a (90% tank filling, 68kg for the driver and 7kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.
[2] The overall weight of the trailer may not exceed the maximum permissible trailer load, taking into account the maximum permissible towbar download.
[3] BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. Output and consumption figures apply to RON 98 fuel. The BMW M550d xDrive is designed for sulphur-free diesel fuel (DIN EN 590).
[4] All engines comply with the EU6 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle made up of approximately one-third urban traffic and two-thirds extra-urban driving (based on the distance covered). CO_2 emissions are measured in addition to fuel consumption. Optional equipment may increase these figures. Fuel consumption and CO_2 emissions figures depend on the selected wheel/tyre size. For further information consult your BMW partner.
[5] Combined system output from electric motor and internal combustion engine.
[6] Electronically limited.
[7] Height with roof aerial is 1,475mm (BMW M550d xDrive: 1,465mm).
[8] 520i, 528i, 535i, 518d, 520d and 525d values are for standard six-speed manual transmission (xDrive models come with eight-speed Steptronic transmission as standard).
[9] 525d and 530d xDrive models with higher battery capacity and alternator output.

Values in [ ] apply to vehicles with eight-speed Steptronic transmission (standard on 550i, 535d and 530d and xDrive models).

WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the **Condition Based Service** independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it's really necessary. When you do go, our **qualified BMW service specialists** take care of your vehicle using the newest workshop technology and only **original BMW parts.** This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW SERVICE.

BMW Service Inclusive*: BMW Service Inclusive enables you to enjoy unlimited driving pleasure in your new BMW. You can select different coverage packages and various contract durations. Costs for maintenance, inspection and wear are covered for the entire duration of the contract. Of course, only Original BMW Parts will be used for any repairs. BMW Service Inclusive is not just effective in your country, but worldwide, at all participating BMW Service partners. For further information visit **www.bmw.com/serviceinclusive**

BMW Mobile Service*: This service is there for you in case of a breakdown, day and night. Specially trained BMW technicians do everything necessary, on the phone or on-site, to get your car back on the road as fast as possible. We offer a comprehensive country-specific mobility package for breakdowns and insurance that covers you in the event of an accident or theft. And in case of an accident, call us at the BMW accident hotline! We'll take care of calling the police, an ambulance, a tow truck, a replacement car, notifying your insurance company and much more. For more information visit **www.bmw.com**

BMW TeleServices*: With Condition Based Service, you'll be automatically notified in the display of your next necessary service appointment. Provided you've consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW TeleServices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit **www.bmw.com/teleservices**

BMW FINANCIAL SERVICE.

BMW Financial Services: Tailor-made finance: BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit **www.bmwfs.com** or ask your local BMW partner to make you an individual offer.

THE BMW EXPERIENCE.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car's physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit **www.bmwdrivingexperience.com**

BMW Welt: A visit to BMW Welt is something you will never forget, whether you go to pick up a new car or just to enjoy the fascination of the brand. To collect a new vehicle, you can choose between three options: Premium Compact, Premium or Premium Plus. To enjoy BMW Welt online, simply visit **www.bmw-welt.com/en**

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at **www.bmw.com/magazine**

SHAPING THE FUTURE – RESPONSIBLY.

In 2013, the BMW Group was once again listed in the Dow Jones Sustainability World and Europe Indices and thus ranked one of the most sustainable automotive companies worldwide. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO_2 emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We're also aiming to reduce the amount of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Steyr has been waste-water free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our website.
